and the length of the back region in the waist direction when force is not applied from the outside thereto is generally equal to or shorter than the length of the abdominal region in the waist direction " is not specified. The invention in Claim 2 includes a step for manufacturing a first elastic laminate for back region and a second elastic laminate for abdominal region. The invention in Claim 3 does not specify the manufacture of the elastic laminate for the abdominal region. Accordingly, the inventions in Claims 1 to 3 do not fulfill the requirement of unity of invention.
